Neosmile Zirconia

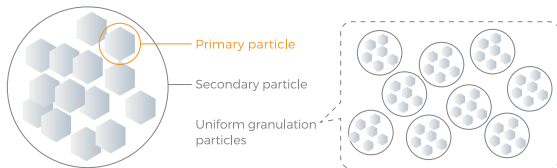

Bridge the Aesthetics and Functionality to Next Level

Balance of strength and aesthetics

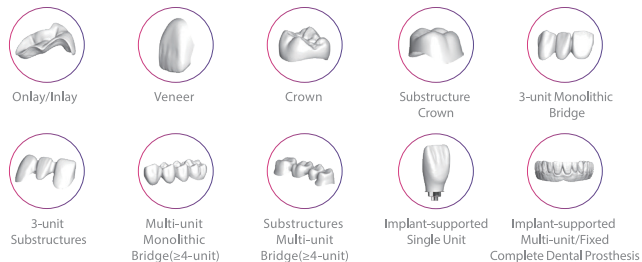

- A complete tooth shade system, matching the natural aesthetic effect
- First choice for chair-side restorations

Escalating good quality with innovative UPD technology

- Excellent consistency and stability
- Reduced deformation, ensuring the needs of fitting accuracy

Versatility in application and adaptability

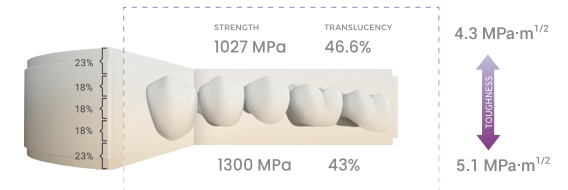

Explore Series Zirconia

Aesthetics Beyond Your Imagination

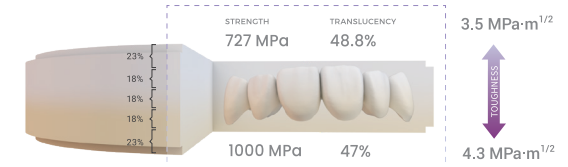

Explore Functional

- Gradient translucency and various shades
- Ideal for posterior restorations with higher strength
- Functional restoration with simple operation

Explore Esthetic

- Multilayer zirconia with gradient strength;
- Ideal for anterior restorations with higher translucency and natural results;
- Meet the esthetic needs of different groups of people.
